

## Easter challenge

Unfortunately we are unable to have our annual Easter Bonnet Parade at Nursery this year but we would still love the children to make one with the help of their grown ups.

I know that we can't pop to Homebargains to buy an Easter Bonnet kit, like Mrs Dickson would normally do so let's be creative! Use whatever you can that's already in your house and garden

- Use cereal boxes to cut out Easter eggs, chicks and bunnies
  - Use paper/newspaper/magazines
  - Use grass/twigs/flowers from your garden
  - Cut up material from old clothes/bedding
- If you haven't got glue or sellotape you could mix flour and water to stick paper to make a papier-mâché design
  - Use your child's toys that are small enough to attach to a hat
- If you haven't got a bonnet, use any hat or headband or make a band out of a strip of card

Please take a photo of your child wearing their Easter bonnet and either forward to me at [nia.dickson@https.wales](mailto:nia.dickson@https.wales) or upload to our nursery Twitter

Can't wait to see you all wearing your wonderful creations!

# Build a bird's nest

## You will need

- Newspaper
- Bags or baskets to collect nesting material
- Access to: sticks, grass, leaves, various other natural materials like pine needles, feathers, moss and mud

1 Lay some newspaper on the ground or a table where you want to make your nest – things are going to get messy!

2 Head outdoors and collect all your natural materials and bring it back to your working area. Empty it all out onto the newspaper.

3 Weave your twigs, grass and moss and your natural materials together, and use some mud to keep it all in place.

4 When you've finished, show your nests to each other. Would eggs be snug and cosy? How strong is your nest? How many chocolate eggs you can fit inside?

5 Consider dismantling your nests and leave the materials for real birds to pick up and reuse – try wedging them into shrubs!
